5th August, 2022.

The Chairperson,
GIPSA,
C/O National Insurance Co Ltd,
HO Kolkata.

Madam,

Re: Seeking an appointment with you to discuss on our various pending issues like Increase in Family Pension amount from 15% to 30% as done in banks updation of pension etc.

We appreciate the initiative taken by you as Chairperson, GIPSA duly supported by other CMDs to create a path of achieving an honourable wage settlement of working employees. Hope everything will be over within this month.

We, the pensioners are also having some stakes towards the progress of PSGI companies. Many pensioners are still alive who worked in these companies when they were just nationalised. At that time advance technology was not there and they worked hard manually and seen to it that companies progress from year to year. Those time better sense of belongings and better work culture amongst employees prevailed. Today many of them are getting small pension of twenty/twenty-five thousand only per month.

Having contributed so immensely we find they are neglected by the company management. You understand that we, pensioners are senior citizens and need some minimum facilities from the companies where we worked more than 35/40 years. As pensioners we want to have a dignified life. We expect better medical facilities as we are growing old. Central Government pensioners are getting better facilities than us especially for health care.

We have also submitted our charter of demands in April, 2019. We were not pressing for discussion on our charter as we wanted to see PSGI companies financial health is improved. As all the four companies have started new strategies in capturing better market share, we feel it is the right time to press for having a discussion officially with our All-India Federation by 1st or 2nd week of September 2022.
