Dear Pensioners,

We are sure that you all are in good health and are enjoying a very active, happy retired life.

We take this opportunity to say a few activities of our Association, which was formed in the year 1996 when Pension was introduced in GIC & its subsidiary companies.

The Association has been actively involved in the betterment of Pensioners who face problem in their day-to-day activities, be it delay or non-receipt of pension/family pension, delay in settlement of Mediclaim, or loading of premium.

It has always been our endeavor to ensure that the Pensioners leave a dignified life and hence our Association has always been in the helm of activities with Joint Federation of Trade Union and has joined them in dharna for our demand of increase of Family pension to 30% in New Delhi & Mumbai.

It is the efforts of our association that the much-delayed release of family pension by LIC has been sorted out and the Pension was released in the month of July after a lapse of more than 9 months.

We have been carrying out many such activities for which our office bearers have to New Delhi to meet Ministers, officials in the Department of Finance. Further, for sharing of information our association maintains a web site <https://qicpensioners.com> wherein, the latest circulars of GICPA companies are uploaded, the cost of postage incurred for sending circulars to members are also huge, hence, we seek your support and therefore, appeal to you contribute for the existence of day to activities of the Association by way of donation in addition to a contribution of one time Life Membership fees of Rs.2,000/- by way of Cheques in favor of the association or by way of online transfer to the associations bank account No.010810600181, IFSC CNRB0000108 with Canara Bank, Fort, Mumbai Main Branch, Sir P.M. Road, Fort, Mumbai 400 001.

We are sanguine that you will appreciate the efforts taken by the association for Pensioners and will contribute to the association for the day-to-day activities.

Thanking you.

Comradely yours
